There I was, in the open...

Chapter 2 by Andrew Hartmann

I get sniped in the head by a Locus. I wait a couple seconds then respawn. I was going with the KN-44 playing as the Ruin. The gravity spikes were pretty reliable when there is a room full of unsuspecting players. So I'm playing the map Infection. I spawned by the church and start running into it. When I get in there, there is a player running up the stairs on the left side of the room. I quickly aim and start shooting. After a couple shots ripped through him he dropped to the ground. I then go up the stairs and go up the the window. Then a person with the Locus snipes me in the head.
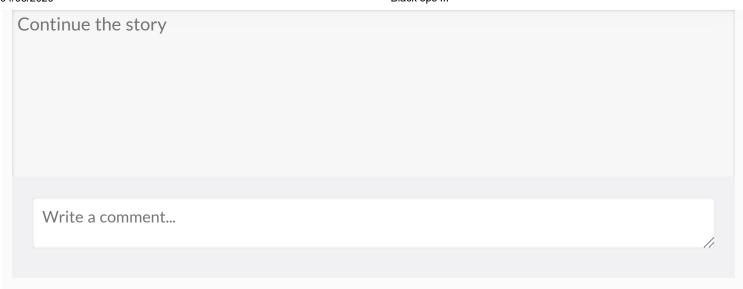

Time for revenge.
